OFFICE OF PETITIONS

Sir:

In response to the Dismissal of Petition to Revive mailed September 16, 2004, applicants hereby renew their petition pursuant to Rule 137(a) to revive the above-identified application which was unavoidably abandoned and provide the following:

(1) The reply required to the outstanding Office notice was previously mailed on September 15, 2003.

(2) The petition fee is authorized in the accompanying Fee Transmittal.

(3) The following listing of pertinent events will show that the abandonment was unavoidable:

On February 21, 2001 applicants filed provisional Appl.No. 60/270,264.

On June 15, 2001 applicants received the Filing Receipt for the provisional application which had been mailed by the USPTO on June 11, 2001.

On February 21, 2002 applicants filed the conversion of the provisional application into the present nonprovisional Appl.No. 10/081,355 (the "Application"); the Application was filed without declarations.

On March 26, 2002 applicants received the Filing Receipt for the Application which had been mailed by the USPTO on March 20, 2002. A Notice to File Missing Parts for the Application was not received concurrently with the

Filing Receipt. The enclosed Declarations of Allen B. Kroger and Carlton H. Hoel establish this failure to timely receive any Notice to File Missing Parts mailed March 20, 2002.

On June 10, 2002 and June 12, 2002 applicants signed the declarations for the Application and waited for a Notice to File Missing Parts from the USPTO.

Shortly before August 19, 2003 applicants sua sponte reviewed PAIR entries for the Application and found an entry listing a mailing on March 20, 2002 of a Notice to File Missing Parts. As a consequence, applicants contacted the USPTO to request a copy of this Notice to File Missing Parts which had not been received by applicants.

On August 19, 2003 the USPTO faxed a copy of this Notice to File Missing Parts to applicants.

On September 15, 2003 applicants submitted the declarations (which previously had been signed June 10-12, 2002) together with a copy of the faxed Notice to File Missing Parts to the USPTO.

On January 05, 2004 applicants received a Notice of Abandonment mailed by the USPTO on December 31, 2003 (copy attached).

Applicants failure to timely receive the Notice to File Missing Parts made the abandonment of the Application unavoidable.

(4) No terminal disclaimer is required pursuant to Rule 137(d)..

Respectfully submitted,

DECLARATION OF CARLTON H. HOEL

I, Carlton H. Hoel, do hereby declare:

- (1) I am an attorney of record in the above-identified application (the "Application") and the attorney at Texas Instruments Incorporated ("TI") assigned to prosecute the Application.
- (2) Prior to shortly before August 19, 2003, I had no knowledge that a Notice to File Missing Parts dated March 20, 2002 (the "Notice") had been rendered in the Application.
- (3) Prior to receiving on August 19, 2003 a faxed copy of the Notice, the prosecution file for the Application contained no copy of the Notice.
- (4) A copy of a printout of the record in the TI legal database relating to the Application is attached. The entry "Blue Filing Receipt 03/26/2002" in the upper left of page 2 of this printout shows reception on March 26, 2002 of the Filing Receipt (mailed March 20, 2002), but there is no entry indicating reception of the Notice also mailed March 20, 2002.
- (5) My first indication that the Notice had been rendered in the Application was shortly before August 19, 2003 when my secretary queried PAIR entries for the Application and found the listing of the Notice as mailed March 20, 2002.
- (6) After the August 19, 2003 reception of a faxed copy of the Notice, I submitted the missing parts (declarations of the inventors previously signed June 10-12, 2002) plus a copy of the Notice on September 15, 2003. In view of these facts, the submission of the missing parts was timely; the abandonment of the Application was unavoidable and the Application should be revived.
- (7) I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
